Scraped data

I used webscraping to extract weed prices available in priceofweed.com through Wayback Machine.

quality_type	price	Year	Jurisdictions
High Quality	447.00	2010	Alabama
Medium Quality	161.43	2010	Alabama
High Quality	290.00	2010	Alaska
Medium Quality	142.50	2010	Alaska
High Quality	381.40	2010	Arizona
Medium Quality	258.74	2010	Arizona

Price of weed trend

The average national price of medium and high quality marijuana decreased gradually between 2010 and 2015 and then increased steeply for no more than a year. The prices seem to be stable starting from 2016, period in which many states legalized marijuana.

score card API

I downloaded the enrollment data for all the colleges in Oklahoma (tile IV institutions) for the years 2017 and 2019. We examine the admission rate trends three year before the pandemic took place. The source doesn't have data for 2020 year.
